OFA Good, #GSP-12668G28F-PI

DNA Profile # V456887

Coat: Medium Dense/Medium Harsh

Nitro is a hard charging hunting machine. Nitro is from a NAVHDA Natural Ability and Utility Breeders Award litter. Five of the seven puppies in his litter are NAVHDA Versatile Champions, making it the only litter in the history of NAVHDA to have 5 Versatile Champions.

Belle is a very calm house dog that flips the switch in the field and water to show incredible non-stop drive and desire. She is a tireless hunter who hunts close in the grouse woods, expands in the plains for pheasants and sharptails, and will sit calmly in the duck blind.

This litter should produce puppies with a lot of natural hunting ability and drive in the field and water.

We are now accepting deposits to reserve you puppy.
